FOR PAYMENT PROVIDER REVIEW

Compliance pack

ALDERROCK LTD · Company No. 17381132 · Dept 6984, 196 High Road, Wood Green, London, N22 8HH, United Kingdom · Billing contact info@cartridge-club.com · Last updated 14 October 2026

This page documents the changes made to the website and contains the requested purchase example: the customer journey, the order as it appears in the back office, and the Order Confirmation email and invoice the customer receives after payment.

1. Balance – top-up and spend only, no withdrawals

All references to withdrawing, cashing out or transferring Balance have been removed from the website. Balance can only be topped up and used to pay for digital products on the platform; there is no withdrawal, payout or transfer function in the product or in the policies.

PAGE	CHANGE
/balance-terms	Rewritten. Clauses 1.2 and 1.3 define Credits as non-transferable virtual credits that are not redeemable for cash and cannot be sold, assigned, gifted or transferred between Accounts. The former cash-redemption section is gone; clause 7 covers top-up corrections and payment errors without creating a right to redeem Credits for money.
/terms	Clause 9 defines Balance as the feature displaying Credits and repeats the non-transferable, not-redeemable-for-cash wording. Clause 8.5 states the card statement descriptor; clause 10 covers immediate supply and the withdrawal acknowledgement.
/privacy	Section 8 covers Balance and payment transactions — recording top-ups, purchases, restored Credits, refunds and reversals. No payout instructions or third-party beneficiary data are processed.
/refund-policy	Section 17 repeats that Credits are not redeemable for cash. Card purchases are refunded to the original payment route and Credits-funded purchases restore Credits (section 12); a payment correction does not create an entitlement to redeem Credits for money (clause 3.3).

We use cookies to keep your cart, remember your currency and improve the store. See our Privacy and Cookie Policy.

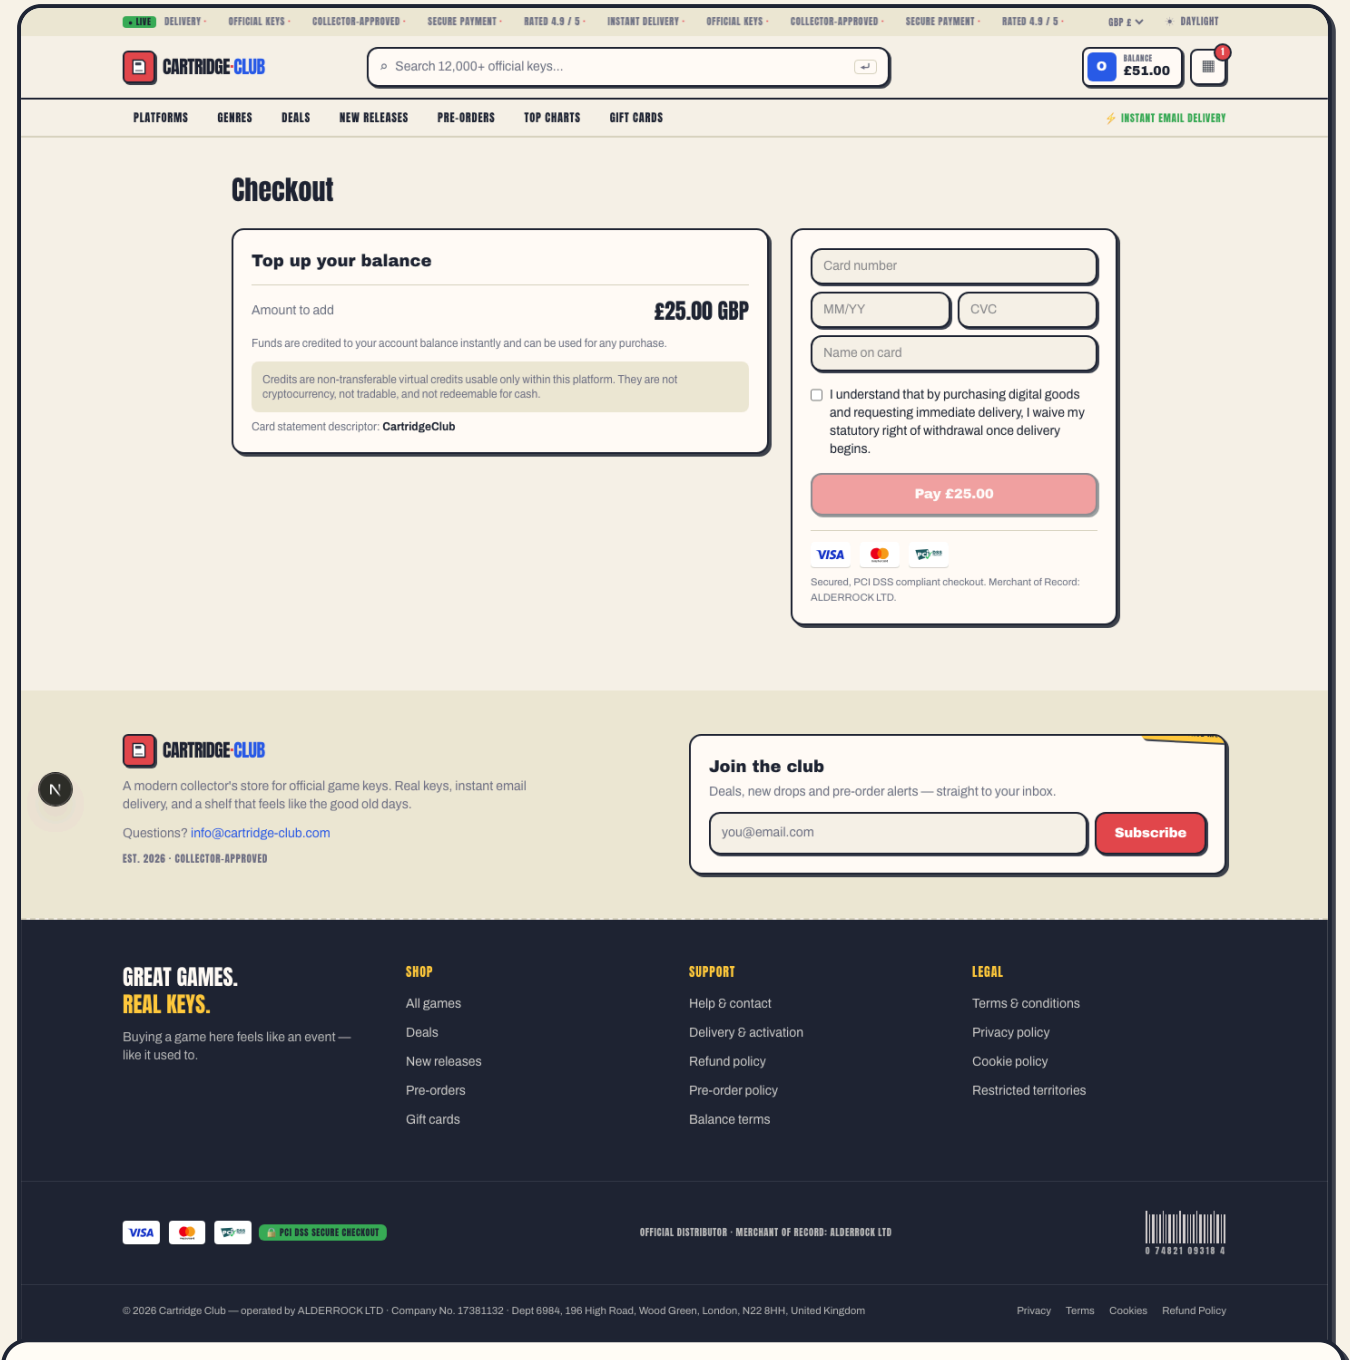

Essential only

Accept all

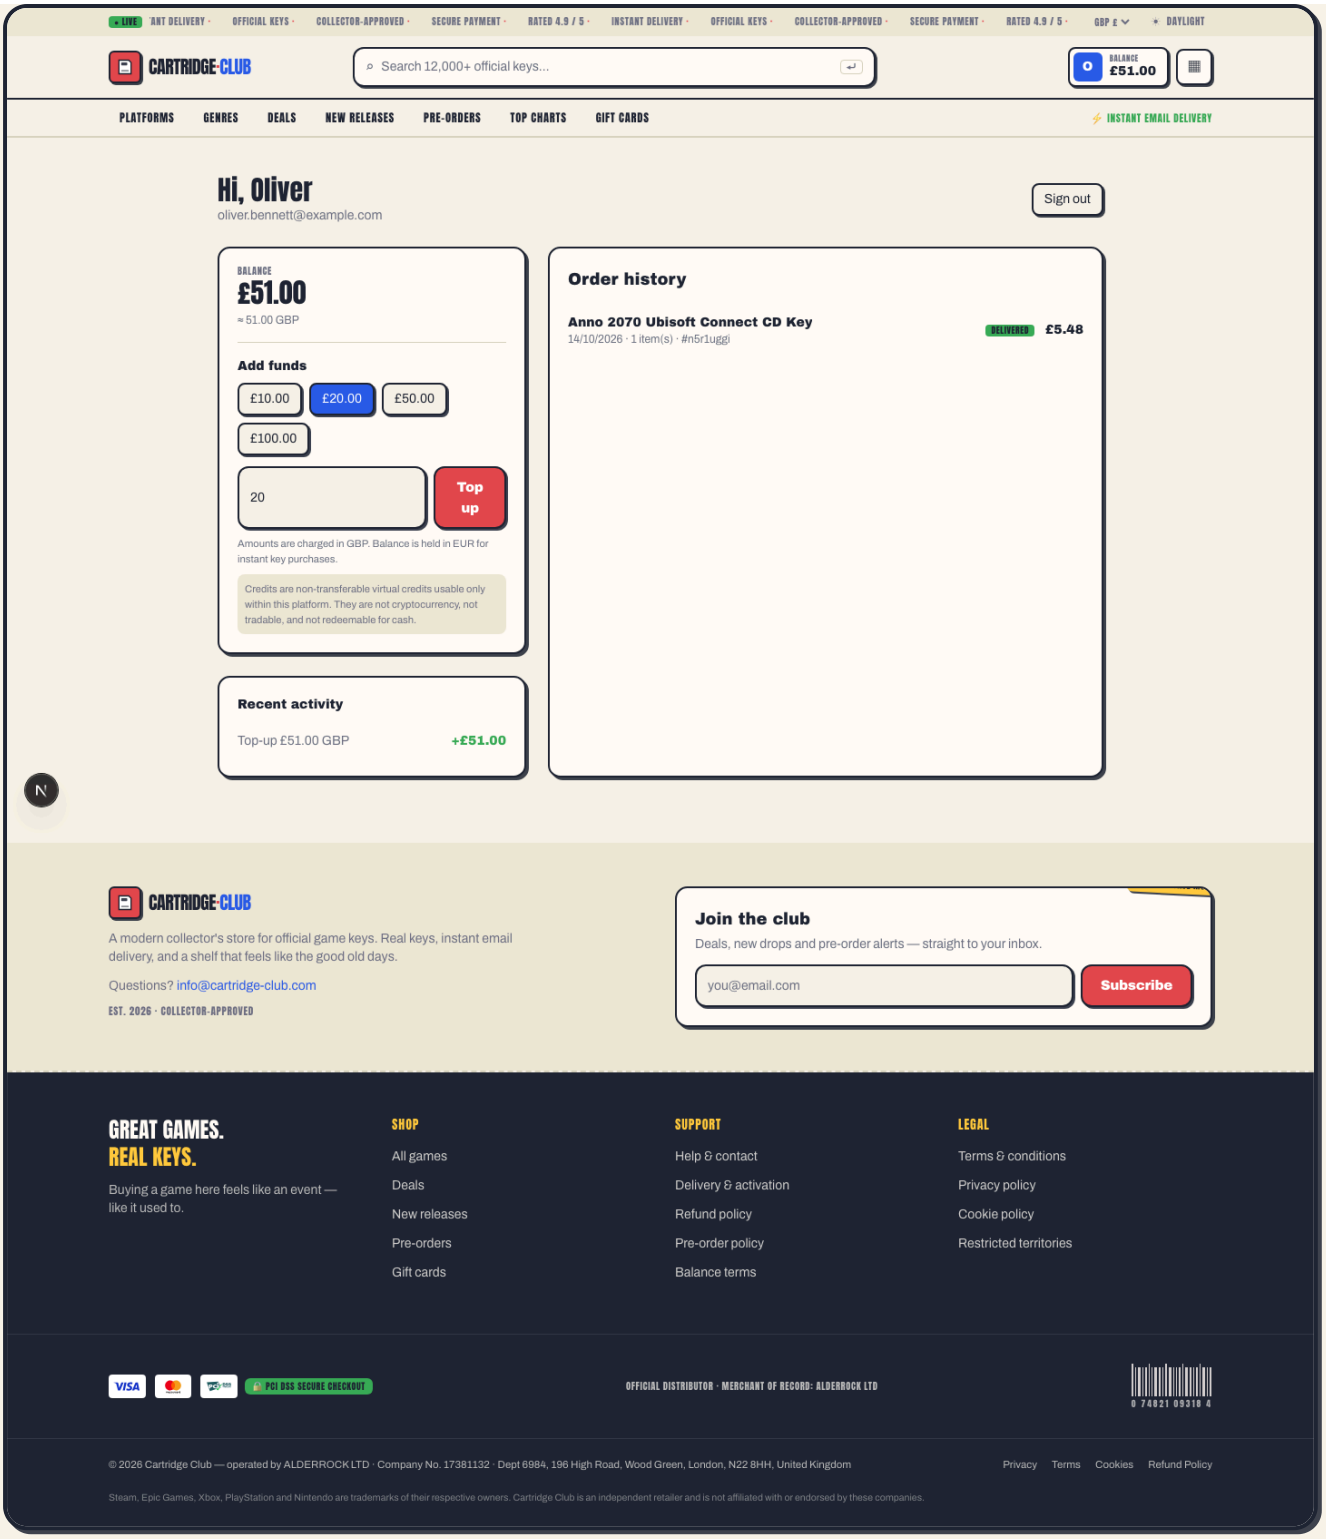

PAGE	CHANGE
	Account or used to bypass territory restrictions, and paid Credits are not forfeited merely because the territory list changes.

The required disclosure is shown before payment on the Balance top-up screen, on the checkout, and on the Balance card in the customer account:

> Credits are non-transferable virtual credits usable only within this platform. They are not cryptocurrency, not tradable, and not redeemable for cash.

We use cookies to keep your cart, remember your currency and improve the store. See our Privacy and Cookie Policy.

Customer account — the same disclosure appears under the Balance card. No withdrawal option exists.

2. Privacy Policy – data retention

The Privacy Policy sets a defined maximum retention period for every category of data, with automated

We use cookies to keep your cart, remember your currency and improve the store. See our Privacy and Cookie Policy.

DATA CATEGORY	RETENTION
Account profile, settings and login data	While the Account is active; after closure, data not needed for another identified purpose is automatically deleted within 30 days
Inactive Accounts	After 24 months without a login, purchase or top-up an Account may be scheduled for closure, but only if it holds no Credits, orders, disputes or other obligations, and only after at least 30 days' notice
Order, payment, top-up, refund and accounting records	Six years after the end of the accounting period, limited to the identifiers and records needed for accounting, tax and proof of delivery. Longer only under a specific law, tax enquiry or documented legal hold
Support correspondence and attachments	24 months after the ticket is closed; evidence needed for an accounting record or identified claim is kept separately
Identity verification documents	Copies deleted within 90 days of completed verification; only a minimal verification result is kept with the transaction record
Routine technical and security logs	180 days; incident or fraud evidence kept separately while that matter requires it

We use cookies to keep your cart, remember your currency and improve the store. See our Privacy and Cookie Policy.

DATA CATEGORY	RETENTION
Marketing profile and preferences	Until unsubscribe or 24 months without relevant interaction; profile data deleted within 30 days, minimal suppression information retained
Consent evidence and suppression records	Up to six years after consent is withdrawn or an opt-out is recorded, only while needed to demonstrate lawful processing or honour the opt-out
Expiry of any ordinary period	Live-system data automatically deleted or irreversibly anonymised within 30 days
Backups and disaster recovery copies	Overwritten or deleted no later than 35 days after creation. Data deleted from live systems may persist in an existing backup for no more than a further 35 days, placed beyond ordinary use; deletion instructions are reapplied before a restored backup returns to use
Legal holds	Applied only to records needed for an identified dispute, investigation or legal obligation, access restricted and reviewed at least every six months; deleted within 30 days after the hold ends

The schedule applies to data under our control, including processors acting on our instructions. Banks

We use cookies to keep your cart, remember your currency and improve the store. See our Privacy and Cookie Policy.

3. Checkout

Card statement descriptor

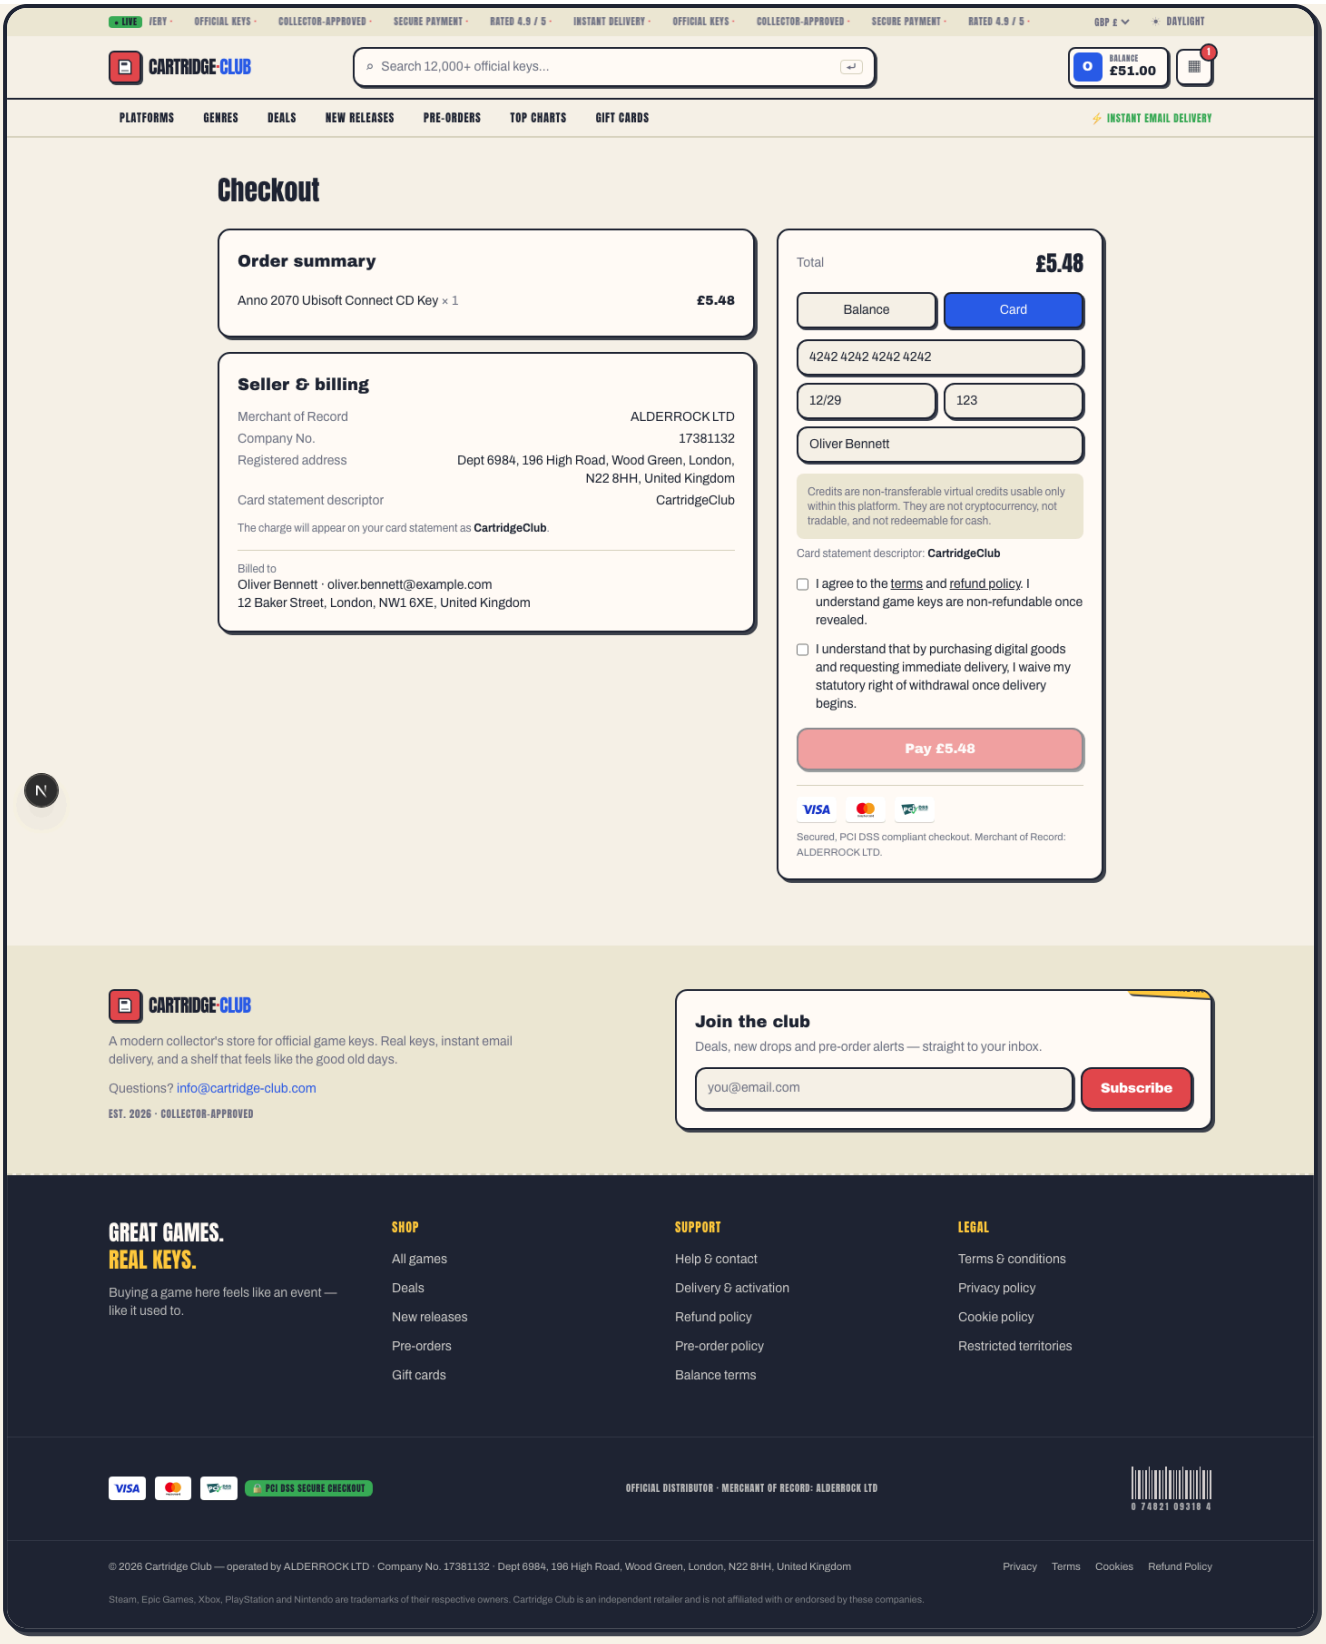

Card statement descriptor: CartridgeClub is shown in the payment panel and repeated in the Seller & billing block (“The charge will appear on your card statement as CartridgeClub”). It is also stated in the Terms, Payment section, and on the Balance top-up screen.

Statutory withdrawal waiver

A mandatory checkbox, unticked by default, must be accepted before payment can be submitted. It is shown to every customer, not only to EU/UK customers, and is enforced both in the form and on the server — a request without the acknowledgement is rejected. The checkbox records both the express request for immediate delivery and the acknowledgement, and the order confirmation email repeats them so the customer keeps the confirmation on a durable medium.

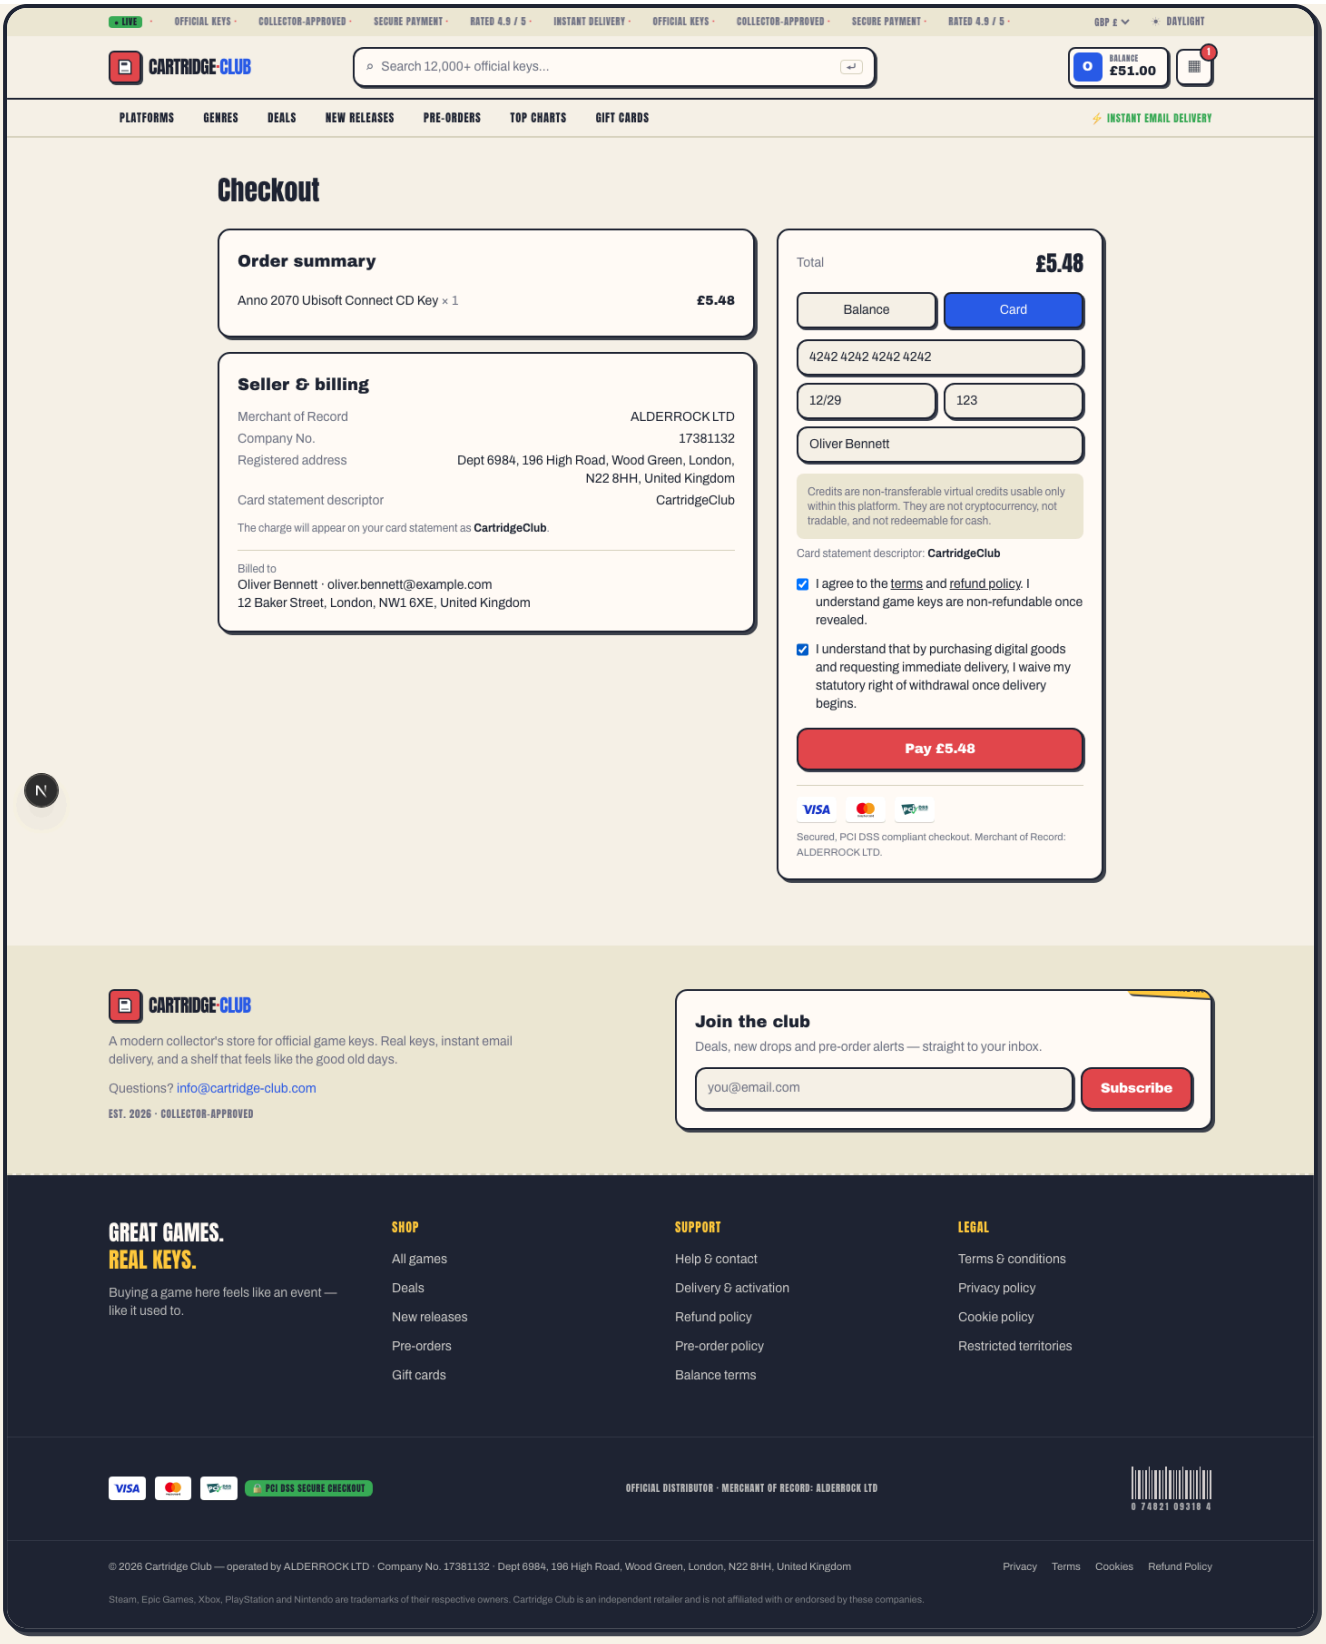

> I understand that by purchasing digital goods and requesting immediate delivery, I waive my statutory right of withdrawal once delivery begins.

We use cookies to keep your cart, remember your currency and improve the store. See our Privacy and Cookie Policy.

Checkout as first presented: statement descriptor, credits disclosure, and both consent boxes unticked. The Pay button is disabled.

We use cookies to keep your cart, remember your currency and improve the store. See our Privacy and Cookie Policy.

After the customer accepts the terms and the withdrawal waiver, payment becomes available.

We use cookies to keep your cart, remember your currency and improve the store. See our Privacy and Cookie Policy.

- **Refund conditions and exclusions** — invalid, already redeemed, revoked or misdescribed keys; non-delivery; pre-orders; third-party gift card codes; customer selection errors; and the delivered-key rule.
- **Technical failures** — payment captured without a key issued, duplicate charge, or a delivery system error: redelivery or a full refund at the customer's choice; confirmed duplicate charges refunded to the original payment method without deduction.
- **Response times** (section 16) — acknowledged within 2 business days, Monday to Friday excluding public holidays in England and Wales; substantive decision within 14 calendar days of receiving the request, with any shorter statutory deadline taking precedence.
- **Refund release** (section 12) — released without undue delay and, for applicable UK statutory digital-content refunds, no later than 14 calendar days after agreeing entitlement; card refunds go to the original payment route and are not replaced with Credits without the customer's agreement.
- **Submission window** (section 15) — standard requests within 30 calendar days of purchase. This administrative window does not shorten statutory rights, and pre-orders and later-discovered problems are not rejected merely because 30 days have passed.
- **Chargeback procedure** (section 13) — customers are encouraged to contact support first so we can resolve the issue, but that is expressly not a condition of their right to contact their bank or dispute a transaction. No duplicate recovery for the same amount; a good-faith dispute is not treated as abuse.
- **Billing contact** — info@cartridge-club.com, linked in the cancellation, chargeback and support sections.
- **No contradictions on Balance** (section 17) — Credits are not redeemable for cash; a payment correction does not create an entitlement to redeem Credits for money, and refunds of Credits-funded purchases restore Credits.

---

5. Purchase example

The screenshots below follow one order from the catalogue to the delivered key, then show the same order in the back office, and finally the Order Confirmation email and the PDF invoice the customer receives. The card number shown is the standard test number 4242 4242 4242 4242.

About this game

Anno 2070. Our world has changed. The rising level of the ocean has harmed the coastal cities and climate change has made large stretches of land inhospitable. The latest in the award-winning strategy series, Anno 2070™ offers a new world full of challenges, where you will need to master resources, diplomacy, and trade in the most comprehensive economic management system in the Anno series. Build your society of the future, colonize islands, and create sprawling megacities with multitudes of buildings, vehicles, and resources to manage. Engineer production chains such as Robot Factories, Oil Refineries, and Diamond Mines, and trade with a variety of goods and commodities. Features A New Era While adhering to the fundamentals that made the Anno franchise a success, the near-future setting will bring numerous new gameplay mechanics, architectural breakthroughs, and all-new challenges. Additionally, players will be able to build massive cities, the scope of which has never been seen in prior Anno games! Become an Architect of the Future Face the current world's challenges to shape the world of tomorrow. You can either join the Tycoons to pursue an industrial and efficient course, or side with the Ecos to create a more sustainable and environmentally friendly direction. An Evolving, Dynamic World Decisions will have an impact on the environment, the architectural look of the world, and the needs of the population. Discover Hidden Depths and New Resources The mysteries of the sea and the sky are waiting to be discovered. Take advantage of the transport systems of the future and develop a powerful economy. The Enhanced Anno with New Features to Master Smuggle wares between harbors without being detected by the coastal patrols, or forge alliances with powerful figures to expan...
